CAREER OBJECTIVES

I have completed my first year of apprenticeship, and I am now even more satisfied and passionate about the job and the field I have chosen. I am currently doing a gap year, that will allow me to improve my English, and give me an international experience. After having completed 4 weeks of English courses to validate my level, I am looking for a job as an UX-UI designer. I am highly motivated to join your team as soon as possible. You can consult a part of my portfolio on my website, designed and devoloped by myself. Don't hesitate to contact me to see more.

SKILLS

Thinking user experience
Data comprehension, user testing, wireframing, prototyping, user maps, personas.

Designing user interface
